

DELTA FIELDLAS LASER LINE MARKING

Delta FieldLAS series is a laser projection system for line projection with multifunctional industrial applications. It is easy to install and adjust, with the capability to adjust the length of the projection and to adjust the line thickness in advance. It is ideal for industrial applications that require a sufficiently powerful laser to project bright lines over long distances. It is safe enough so special safety goggles are not needed.

PRODUCT FEATURES:

- The new latest technology with the most bright & solid lines
- Improved longevity due to diode laser source
- Microprocessor control
- Protection rating IP67
- Installation in the open or inside buildings
- Solid enclosure
- Easy to install
- Precise mount, rotatable at 360°
- Heating control

AVAILABLE IN:

- Colours - Green & Red
- Length - Adjustable

APPLICATIONS:

- Replacement of traditional zones or painted paths
- Creation of lines in applications where tape do not work (dusty, cold, dirty work areas)
- Definition of pedestrian and forklift areas
- Securing of overhead cranes and zones
- Definition of areas for semi-trailer docks

LIMITATIONS & NOTES:

- Not suitable for applications in full sunlight
- Must be installed by a qualified electrician (when hard wiring)
- Each application must be customised to suit environment - no one size fits all
- Technical data sheet is available on request
